- OU has requested numbers to compete for a BASIC and ADVANCED location
- OU has proposed \$75,000 worth of funding
- Staffing and extra fees to be covered by \$100 registration
 - Provides opportunities for more students to attend.
- Questions for OU
 - How long will they provide the \$75,00?
 - If only one year, it will hurt the program= no
 - Will Advanced get the full \$75,000?
 - Will \$75,00 include coverage for transportation to the ropes course?
 - We need dorms and meeting rooms close.
- UCO
 - Can they match these services??
 - We don't want to burn a bridge because they helped us in a jam.

Other Points from Committee (unanimously wants to stay at UCO):

-Ropes course location is a big factor to eliminate travel time.

-OU has listed things they want in return.

-UCO has asked what more they can do for us.

-UCO stepped up last year when we were in a bind.

-UCO meeting rooms & dorms within 1,000 feet

-UCO food services has more variety

This was the last email I received from OU regarding the return. This information was given to the Advanced Committee at State and was considered in their report to stay at UCO. There was never mention of \$75,000.00 only that there may be other costs able to be covered internally. Also is the \$75,000.00 for both BASIC & Advanced? What is the length for availability?
